Somebody's waiting for me at home
Somebody's waiting for me at home
I should've known
I should've known

And somebody's got a car outside
Somebody's got a car outside
Let's take a ride
Let's take a ride

Somebody's waiting for me at home
Somebody's waiting for me at home
I should have known
I should have known
Here we go

And somebody's got a car outside
Somebody's got a car outside
Let's take a ride

I know that it's late but I've nowhere to go
Somebody's waiting for me at home
I should've chose
I should've chose

Cause you can run and have your fun
But don't come around when she get's home

Oh baby, don't go home

There's a door in my heart
And it's open tonight
Come on in I got you tonight
Come on in I got you tonight
I should've told
I should've told

Cause you can run and have your fun
But don't come around when she gets home
