Chorus:

Rain all night, rain all night
Sweet and steady and slow
Come on clouds, don't get tired
And rain all night, rain all night!

It's been so long since we've had any
Come on down and...
A few more nights and we'll have plenty
To live like kings again!

Chorus:

Rain all night, rain all night
Sweet and steady and slow
Come on clouds, don't get tired
And rain all night, rain all night!
All night!

Little while will be up and at it
Throwing ourselves at the day
We should be asleep, we both know
We just listen to the rain!

Chorus:

Rain all night, rain all night
Sweet and steady and slow
Come on clouds, don't get tired
Rain all night, rain all night
Rain all night, rain all night
All night!
