### "I Think You Need A Shot"

Visit "[I Think You Need A Shot](#)" on MotoLyrics.com

You got bad blood mama and I believe you need a shot  
You got bad blood baby, I believe you need a shot  
Now turn over here mama, let me see what else you  
got

I doctors on women, I don't fool around with men  
I doctors on women, I don't fool around with men  
All right take it easy here mama, while's I stick my  
needle in

Lord your ways is so loving and your skin is nice and  
soft  
Lord your ways is loving and your skin is nice and soft  
Lord if you keep on struttin' mama, you gonna make  
me break my needle off

Lord my needle is in you baby and you seem to feel all  
right  
Lord my needle is in you baby and you seem to feel all  
right  
And when your medicine going to come down, I want  
you to hug me tight

Yeh your medicine's come now baby, put your leg  
upside the wall  
Yeh your medicine's come mama, put your foot upside  
the wall  
I don't want to waste none of it mama, I want you to  
have it all.
