

Wanted, The "Hi And Low"

Visit "[Hi And Low](#)" on MotoLyrics.com

I'm gonna see some friends from out of state
The very jet that's you was supposed to take off awhile
ago
It fell through like all of you, like all of you

Thought I'd make the drive but a free plane ride is in
the air
Just like that, my fear of it disappeared like all of you,
like all of you

And I live hi and low for yesterday
Hi and low, for you and I, hi and low

Once I can see straight, I might move somewhere cold
Seattle or the bay area to see your ghost
What's left of you, what's left of you

And I live hi and low for yesterday
Hi and low, for you and I, hi and low

Found a letter from a man I might've met addressed to
you
Still words, he ended with I miss you
And I do miss you and I do

And I live hi and low for yesterday
Hi and low, for you and I, hi and low
