"Break The Chains"

Visit "[Break The Chains](#)" on MotoLyrics.com

Crazy ways on the streets
It's a freak show
Times have changed since I was day one old
There he lies on the ground with his torn up clothes
Gotta help this man but he is not alone
There's got to be a way
That's what I say to myself
But if I try too hard
I'm right back on that shelf
You give and give and give
You think you've won the race
People crying - people dying
Seems like it's lost in space
Break the chains! Of this freak show
Clear my brains - I can't take no more
Break the chains! Of this freak show
Clear my brains - I can't take no more

Crazy ways on the streets
It's a freak show
Times have changed since I was day one old
There he stands with no hope
And his pride in chains
Gotta help his man because his soul's in pain
There's got to be a way
That's what I say to myself
But if I try too hard
I'm right back on that shelf
You give and give and give
You think you've won the race
People crying - people dying
Seems like it's lost in space
Break the chains! Of this freak show
Clear my brains - I can't take no more
