"My Desire"

No way - can't think
Like a one of a king - like a thorn in my side
Too late you looked
Got eyes in the back of my head and I'm hooked

My desire to turn you out
That's how it's gonna be
My desire to turn you out
Freaky feelin' free

Take my mind and fly high
Above the stratosphere
It's a major turn on
Black lace and leather gear
Take it from me don't wanna look
Been passed around like a good book
So you wear wigs, I don't care
Takes a mean freak to catch a stare
Like a B-movie sex queen
Bright lips shimmer and shine
Kiss me again and again
Your desire's divine

Pleasure paint a shade of
Electric candy blue
Try these special shades on
Wild colors make me move
Want praise and pleads like it's no joke
Turn loose my leash so I won't choke
I can tell what you want from me
Foreplay to make a prophecy
No sign - no clue - switcharoo
Knock on wood your rap is good
Mine is too
