We don't like you 'cause you're black
We don't like you 'cause you're white
Judging people by their color
Knowing that it's wrong not right
Burning crosses on the lawns
Killing jews in nazi camps
Apartheid in South Africa
The government don't give a damn
Niggers, crackers, jews and spics
Words the devil likes to use

Hate is gonna slit your throat
Hold your ground don't be abused
The time is now to make a stand
Raise your fist don't run and hide
Fight the devil take a stand
Black and white stand side by side

Racism - take a stand
Racism - hold your ground
Racism - keep the faith
