

Watson Twins, The "Modern Man"

Talking to you, talking to me
across the satellite
The star of modern man
but this old-fashioned girl
stands still in time

Ohhh oh oh

There's nothing to cure
I've been this way for centuries
Hard to believe
that anything so pure
could kill with such ease

Ohhh oh oh

We've been surrounding, ahh
Ohhh oh oh
And terrorizing, ahh

Talking to you, talking to me
across the satellite
Oh now, the star of modern man
but this old-fashioned girl stands still in time

Ohhh oh oh
