"Mr. Duracell"

Visit "[Mr. Duracell](#)" on MotoLyrics.com

(Ah oh)
I went on a blind date last Friday night, yeah (ah oh)
I got my hair done, my nails done, I was looking fly (ah oh)
And when we sat down to have a meal (ah oh oh oh)
I could barely believe what my eyes were seeing was real
(ah oh)
Apparently his mama never taught him how to chew his food
(ah oh) or that ticking his teeth at the table was very rude
(ah oh oh oh)
I went home, and try to think of someone I could call
Oh yeah, I know... good though reliable

[CHORUS:]

Mr. Duracell, yeah (ah ah ahhh)
Every now and then, you'll do it just swell, yeah
It's a job for Mr. Duracell, yeah (ah ah ahhh)
Every now and then you'll do just swell, yeah
And I know he'll never tell

Yo, when my man is tripping, yeah (ah oh)
And the channels he keeps on switching, switching
Ah baby, that was that episode when Keri breaks up with Aden
I mean, I was watching (ah oh oh oh)
But it's like he's not even listening, no (ah oh)
Mm-mmm, sit around all day in front of that Playstation
(ah oh)
Making love with John Madden
Can you imagine? (ah oh)
Oh, but what he don't know is (ah oh)
I've got that Playstation of my own
And he goes by

[CHORUS]

Now this is not meant to put the brothers down
and make them feel left out, no (ah oh)

It's just a friendly reminder
To treat your sisters a little kinder
'Cause even though Mr. Duracell may be comforting (ah
oh)
Then it all refers to real, real value things
(brothers if you just love us right, brothers love us
right)
Then it refers the real things
(brothers if you just love us right, brothers love us
right)
Brothers, won't you love us right
(brothers if you just love us right)
Brothers, brothers, love, love us right, yeah
(brothers if you just love us right, brothers love us
right)
Won't you love us right, love

[GUITAR SOLO]

(Brothers if you just love us right)
(Brothers love us right)
(Brothers if you just love us right)
(Brothers love us right)
(Brothers if you just love us right)
(Brothers love us right)
(Brothers if you just love us right)
(Brothers love us right) love, love us right, yeah

Going, going, going, going, going, going on
Going, going, going, going, going, going on
Going, going, going, going, going, going on
Going, going, going, going... going... going... gone....
