"Secret Identity"

Visit "[Secret Identity](#)" on MotoLyrics.com

Pretty baby, why you gotta tell me these lies.
Did you think that maybe
I wouldn't see right through your disguise.
Well what if you were the one
who had been dupped to believe.
That I was just some pretty girl, young and naive.

That's just my Secret Identity,
I've got super human abilities,
My X-ray eyes see what your trying to do to me.
My bionic ear hears what your saying about me and
I know that your trouble.

I gotta voice in my head that says your comin' around
its like a bell around your neck that rings, hold up look
out
I don't care what you tell me, 'cause I know what I see
See that your trouble for me, bring nothing but trouble
to me.

Trust me baby you wouldn't like me when I'm angry
and when I'm turning green its not because of envy
My bat mobile is loaded up and ready to roll
and in the back I'll wrap you in my golden lasso.

Don't be fooled by my Secrety Identity
I've got super human abilities,
My X-ray eyes see what your trying to do to me.
My bionic ear hears what your saying about me and
I know that your trouble.

I gotta voice in my head that says your comin' around
its like a bell around your neck that rings, hold up look
out
I don't care what you tell me, 'cause I know what I see
See that your trouble for me, bring nothing but trouble
to me.
See that your trouble for me, bring nothing but trouble
to me.

Every hero has an archenemy

an equal match to their strength and agility
but you cannot harm what you can't see,
I've got this inner voice protecting me.

I gotta voice in my head that says your comin' around
its like a bell around your neck that rings, hold up look
out

I don't care what you tell me, 'cause I know what I see
See that your trouble for me, bring nothing but trouble
to me.

See that your trouble for me, bring nothing but trouble
to me.

I gotta voice in my head that says your comin' around
its like a bell around your neck that rings, hold up look
out

I don't care what you tell me, 'cause I know what I see
See that your trouble for me, bring nothing but trouble
to me.

See that your trouble for me, bring nothing but trouble
to me.
