"Be Still"

Visit "[Be Still](#)" on MotoLyrics.com

Ever looked into a mirror?
and all the cracks showed the different ways
that loneliness is killing
you today,
and were you looking for a shelter,
when all the winds came and blew you away
were you hanging by a thread
on the edge of your faith,
Bridge:
Today, If you feel,
Like this world is just a step to something real
Chorus:
Be still,
when the world around you moves,
I can heal,
Every single wound
And dont run,
when your scared and your alone,
I wanna take away your pain if you will,
Be still

Verse 2:
Ever looked into a moment,
that you didnt quite understand
did it feel like control was,
ripped from your hands
are you feeling like a failure
and you just cant quite get it right,
and youv lost a piece of yourself,
with every tear youv cried

Bridge
Chorus
