I feel like I
Am in a different world
A wall of glass
between me and my love
The heavens call me
but I am only crawling
I need your strength to run
So come...

(Chorus)
Come on through
Nothing left but me and you
dont run away
from a love that never fades
So come on through
nothing left but me and you
just take my hand
hold me tight forever and a day...

For far to long
Ive been running
but I never could
get away
three steps behind
enough for me to make up my mind
Im sorry that it took all this time
so come...

(bridge)
the walls are shaking
I hear you saying
(I am coming through)
The walls are breaking
I hear you saying
(Im coming for you)

(chorus2)
Come on through
Nothing left for you to do
dont run away
you know my love

it never fades
So come on through
nothing left for you to do
just take my hand
Ill hold you tight forever and a day

(Dont run away)
(Just take my hand)
So come on through
Ive been waiting all this time for you...
