"Yours"

I was moving way to fast,
I could hardly catch my breath,
but every time i feel like this you pull me back
within your grasp
lying face down on the floor,
I can hear you say Im yours,
You set me on my feet
give me the strength to open doors

Bridge:

Sing over me
Ive never felt this way before
And I am on my knees
I am yours
I am yours...

Chorus:

And I surrender, I surrender
take whatever you want, I dont care anymore
cause Im captured, yours forever,
I cant run away from your embrace
Im yours...

Verse 2:

In your will Im moving
and you are moving with me,
defying gravity
were floating here so gracefully
and when I hear your voice,
Its such a beautiful noise
the whole earth it joins
to sing your symphony

Bridge

Chorus
