Walking around the shadow
Shadows of emotion
I can sense your glow
And your limbs in motion

I need immediate contact
You can be that one
Come on girl
Let me touch your hands
Let me take your hands

Feel the warmth
Take me in your arms
Can you keep this heat
Oh please don't make me wait
Let me touch your lips

Your body is so sweet
Feel my fingertips
Why is your skin so wet

TOUCH
I know your face
Hot pleasure ways
Desire burns me up
Come on take me, girl
Hot pleasure ways
Behind your face

Deceit
Retreat
And another D-Day
In vain, Again
People in close array
