Fighter, Fighter  
You Told me we were fighters, fighters  
Lover, Lover  
We ended just as lovers  
We let the night get away to somewhere better than  
here  
We let the night, get away

Fighter, Fighter  
You Told me we were fighters, fighters  
Lover, Lover  
We ended just as lovers  
We let the night get away to somewhere better than  
here  
We let the night, get away

We always said we would  
As time led us apart  
Our Fate was never meant, forever

Fighter, Fighter  
You Told me we were fighters, fighters  
Lover, Lover  
We ended just as lovers  
We let the night get away to somewhere better than  
here  
We let the night, get away

This won't end quietly  
This won't end quietly  
This will be beautiful my love

This won't end quietly  
This won't end quietly  
This will be beautiful my love

This won't end quietly  
This won't end quietly  
This will be beautiful my love
