"Your silent ways"

Your silent ways, they are killing me,
Just one word and i will be free,
Cause i am wrong, i am wrong,
there's nothing wrong with you,
Still i dream, still i dream,
of all the things that i could do,
And be for you.

Days they come and days they go,
But still the nights crucify everything i know
And i have seen the universe,
carved in the evening sky
And i have lived a thousand years
in my time just fly, fly on by.

My love has always been,
and always will be there,
Even since the world began,
when you didnt have to care.
About all the things,
that i will keep on searching for
And i have heard you knock,
and i will open up the door,
For you.
