And false accusations destroy relationships  
I hope you're happy with all the lies you've spread  
Well I say we change things up, trade out this hate with  
love  
But it has got to start with us

Let's Be the ones to move this city  
If you're with me then say,  
Whoa...Yeah...  
And if we fail, we'll just keep trying till we make it  
Whoa...Yeah...

My strength is not determined by  
Never messing up  
But that every time that I fall down  
Is one more time that I will get back up  
I'll get back up

Let's Be the ones to move this city  
If you're with me then say,  
Whoa...Yeah...  
And if we fail, we'll just keep trying till we make it  
Whoa...Yeah...

So choose your battles wisely  
Get in line  
Look around  
Family is what you'll find  
So choose your battles wisely  
Get in line  
Look around  
Family is what you'll find

Let's Be the ones to move this city  
If you're with me then say,  
Whoa...Yeah...  
And if we fail, we'll just keep trying till we make it  
Whoa...Yeah...
