Your best defense is your mouth
Cash got his front teeth knocked out
And then Timmy was a fake
I was new, was growing faithful
And I'm writing a new ending
My friends you see so clearly
This new perspective I'm seeing
We won't forget you
We won't forget you

A new try for The Goodnight Fight
You better Hold Your Own
Cause it's My Pledge
You should stick around, it's almost over
PMToday and Arlington
I running first class and I'm almost home
It's My Pledge
You should stick around, it's almost over

We're in love with Michael Gaddy
4-7-9 and our families
No one there is with us now
Dance it off lets all get crazy
And there around us wants to be famous
Well I guess it is your chance girl
Jeremy Brown and The Music Hall
Travis and Wendy saw the beginning...

And this is the part where we acknowledge you
Stand up and say that we could never make it without
you
And we have a reason to do the things we do
And we'll keep on fighting till they put us six feet
underground
Oh Stand fast and remember, remember the love
And everything that we dreamed of
Oh Stand fast and remember, remember my love
