

## Wedding, The "This One's For You"

Visit "[This One's For You](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You gotta get, get over yourself a little,  
to see the grass is green.  
You gotta get, get over yourself a little  
to see the grass is green.

You make this all worthwhile,  
you get better by the mile.  
Even when it tears you apart,  
you do your best not to show it.

Its me that you can do without,  
but you chose to stick it out.  
And without you there is no doubt.  
I would break under the burden

You gotta get, get over yourself a little,  
to see the grass is green.  
You gotta get, get over yourself a little,  
to see the grass is green.

Just try love

And I am so self involved,  
yeah I am so typical,  
you could call my every move now baby.

But your a mid summers dream,  
yeah you are so pristine.  
And in the end everything you do  
is just for me.

You gotta get, get over yourself a little,  
to see the grass is green.  
you gotta get, get over yourself a little,  
to see the grass is green.

Just try love  
why do you even bother with me  
Please, tell me what is it you see  
Just try love  
Why do you even bother with me.

So put on your dancing shoes,  
because this beat is for you.  
Every rhythm and note  
thought perfectly through

Its the least I could do,  
after what we've been through.  
I wrote these words cause I love you,  
only you.

You gotta get, get over yourself alittle,  
to see the grass is green.  
You gotta get, get over yourself alittle,  
to see the grass is green.

Just try love  
why do you even bother with me  
please tell me what is it you see  
just try love  
Why do you even bother with me  
Just try love  
Just try love
