(Verse 1)

Welcome to the other side
You're lost
Baby step outside your mind
You've been really good
You've been really good
You've been thinking bout being bad
ever since I put you on
She got money for blow
Just look at that nose
Prescription ain't an issue
You can mix it with the uh
And if you wanna do it, baby
I'm right here with you
I'm on cloud 9
Baby you're behind
You can follow me
You can follow me if you want

(Chorus)

Go downtown with the drugs in your body
Take that step you're the life of the party
Know that step you're the life of the party

(Verse 2)

I got 2 little ladies
I got 1 little room
There's a room full of liquor
Baby what you wanna do?
The way you move
got me feeling so uhh
I been thinking about it baby
I been thinking about it lately
I'm so far gone and you are too
Show me how you

(Chorus)

I love how you touch
How you feel
How you breath

Baby how you do it so good

How you twist with your hips
got the room so slow baby
Girl please don't go
You're gonna please my boys
You been thinking about it baby

(Chorus)
