"Nobody Knows Me At All"

When I was a child everybody smiled, nobody knows
me at all

Very late at night and in the morning light, nobody
knows me at all

Now I got lots of friends, yes, but then again, nobody
knows me at all

Kids and a wife, it's a beautiful life, nobody knows me
at all

And oh when the lights are low
Oh with someone I don't know

I don't give a damn, I'm happy as a clam, nobody
knows me at all
Ah, what can you do? There's nobody like you. Nobody
knows me at all

I know how you feel, no secrets to reveal, nobody
knows me at all
Very late at night and in the morning light, nobody
knows me at all
Nobody knows me, nobody knows me, nobody knows
me at all
