This is not a lullaby,  
one that makes you close your eyes  
Here's a song that will not try  
to hold you in my arms

This is not a true love song,  
one that lifts your heart along  
Because you know it's being sung  
to hold you in my arms

The rain it falls  
right outside your door  
and you know if you call  
I'll be there, I'll be there  
whatever you call me for

This is just a quiet tune,  
to bring the light into your room  
When I'm not right in front of you  
to hold you in my arms

This is not a lullaby  
to keep the clouds out of the sky,  
to be sure you will not cry  
when I hold you in my arms  
I'm gonna hold you in my arms
