She got the best heart
She got the best smile
She got the best moves
Giving me the best times
Shawty got the best walk
And she got the best swag
Ad me love the way she talks
She is bringing me my best ways
She got the best heart
She got the best heart
I miss you in the morning I can't control it
I can't help a calling to my girl
You twist me around
Bounce me up and down
Kiss me on the mouth
Love em off the ground
No other girl compares to you
I don't know what I am gonna do if it went away
Cause we are in love we are in love
And that's all I can say
And if wherever fall apart
Shawty I would find a way
Cause my baby love me and I love my baby
I love my girl
And I need her too
She is the best girl ever
And it's gonna be forever

Chorus

She got the best heart
She got the best smile
She got the best moves
Giving me the best times
Shawty got the best walk
And she got the best swag
Ad me love the way she talks
She is bringing me my best ways
She got the best heart
She got the best heart

I need you in the evening

You I should be holding
I will go crazy if she is far away
You got me singing now
You got me singing loud
You are my candlelight
Brighter than the glow
Nothing can compare to you
Yeah I know that she da best
Girl ain't nothing better
She hold me down through the storms, through
Whatever weather
And I wish that me and her will always be together
Hope she stay here by my side
Cause I hate missing her
My girl is on my mind
I think about you all the time

She is the best girl ever
And it's gonna be forever

Chorus
She got the best heart
She got the best smile
She got the best moves
Giving me the best times
Shawty got the best walk
And she got the best swag
Ad me love the way she talks
She is bringing me my best days
She got the best heart
She got the best heart

Thanks to feel
