Refocus turn it around.
Refocus gonna bring you down.
Pressure comin down on me nothin
But my mind to keep me sane this time.
Just keep thinking about tomorrow.
And what I'll bring no help I gotta help myself.
Try and remain positive keep your head on straight
Can't change the cards.

I've been dealt in life but I'll make the best of what I've
got.
Hard time but I keep going on strong.
Keep going strong.
Refocus turn it around.
Can't live or be as you want gotta live my life for
myself.
Make the best of what I've got.
Refocus turn it around.
