

25 Ta Life "Wise To Da Game"

We fell victims to your lies once before.
Wise to da game.
We fall victims to your lies no more.
Wise to da game.
From the drugs to the beatdowns
To the talks behind each others backs.
To the labels that divide our scene
Talk about unity how come you don't look.
Time to rise above the ignorance cause I'm wise to da
game.

And I refuse to take part cause I'm wise to da game.
Time to rise above the ignorance gain knowledge
judge for yourself.
Put the jealousy aside and start helpnig each other out.
Cause I seen it rise and I seen it all fall.
Time to move ahead
And learn from the mistakes that we made before.
