Visit "[Falling](#)" on MotoLyrics.com

Used 'n' worn in every other moment to come
I used to want her every hour now she's gone
I used to wander in desire now I'm torn
Used to love her, slave for hire, stoned and cold

Every time my soul begins to change, every little thing that makes my day, I'm falling(x2)

Used to live by pain and anger, all alone
Since the day you left me I have filled my head with sorrow, I can't ever hear my song
Used to walk through gates of fire, dead reborn
All that lies before me is the truth you never showed me, Goodbye my lover

Every time my soul begins to change, every little thing that makes my day, I'm falling(x3)

Falling, i'm falling, i'm falling, my love...my love...
I'm falling, I'm falling, with you...my love...

Every time my soul begins to change, every little thing that makes my day, I'm falling(x2)
