

What So "Passe Partout"

I always thought it was a hard thing to do
to leave someone behind, but it's easy with you
just drop it, stop it, leave her and forget her
live your life again as if you never met her

But then you think back to the times you shared
and suddenly you become aware that
forgetting her is not so easy to do
you can leave this lady, but she never leaves you

whoohoo
I've got a passe partout
whoohoo
on the girls you do
whoohoo
oh if you ever knew

whoohoo
so don't put up a fight
whoohoo
just stay home tonight
whoohoo
cause you know you are a man about to lose

but then you think back to the times you shared
and suddenly you become aware that
forgetting her is not so easy to do
you can leave this lady, but she never leaves you

whoohoo
I've got a passe partout
whoohoo
on the girls you do
whoohoo
oh if you ever knew

whoohoo
so don't put up a fight
whoohoo
just stay home tonight
whoohoo

cause you know you are a man about to lose

and in the end you will possess
but in her head it's still a mess
cause we're the ones she's craving for
Whatever you actions, we will win
the more you'll track us, the more we'll sing
cause you know you are a man about to lose

whoohoo
I've got a passe partout
whoohoo
on the girls you do
whoohoo
oh if you ever knew

whoohoo
so don't put up a fight
whoohoo
just stay home tonight
whoohoo
cause you know you are a man about to lose
