Look right inside my camera
Let's stay like this forever
Let's stay in the frame
And let the light in

We roll through every heartless winter
So we can all stay with her
For she holds the sun
Over everyone
Stay in the frame
And let the light in
Play it again
From leader to end
Stay in the frame
And let the light in

And if the camera never lies
We'll stay like this forever
And if the camera never lies
We'll stay like this forever
