The Queen Bee  
Holds her wings to me  
Among the paper roses

Nothing seems so long ago  
And yes, you still look pretty

Home is where your roses grow  
She said ???It's a lucky thing you know???

Three fists of sand  
Thrown to the sea  
And three coins in the fountain

To and fro this turnpike goes

Let's turn these wheels to wings

Wash away the devil's play  
Three for you and three for me

Wash away the devil's play  
Three for you and three for me

To the sea

Home is where your roses grow  
She said ???It's a lucky thing you know???

We're going home
