Green eyes
How can this be you I'm talking to

Green eyes
I speak half truths to myself

Green eyes
And halfway lands a change in plans

Green eyes
This heart is in your hands

Leave it to grow
Leave it now go

These days
These days and hours we try to keep

I won't say goodnight 'til you're asleep

Leave it to grow
Leave it now go

This half life
These half truths
And halfway
I half knew
You'd have to
Leave it to grow
Leave it now go

We'll sleep tight
My green eyes
How can this be you
My green eyes
