Night belongs to us  
Night belongs to us  
When the day has gone to dust  
Night belongs to us

I see you in my dreams  
And you're always there it seems  
It's you I long to clutch  
While the night belongs to us

La ti da la ti da da Na-na

And I dream of the day  
When you come back to stay  
Everything is okay

I dream of the day now

That's all that's left for now  
But I'll take it anyhow  
???Cause day is not but dust  
Only night belongs to us

And I dream of the day  
When you day when you come back to stay  
Everything is okay  
I dream of the day now

La ti da la ti da da Na-na

Night
