You say that you can't do enough  
to make your life complete  
and it seems like you're not happy  
when you spend your time with me

When it feels like you're out of it  
and you don't know where to turn  
you take a small step away from it  
you think of all you do right  
and when the smoke clears you're safe again  
and you're feeling strangely fine

You carry fears, you're freaking out  
cause you've always played it safe  
and there's no use getting worried  
when you know you've got it made

When it feels like you're out of it  
and you don't know where to turn  
you take a small step away from it  
you think of all you do right  
and when the smoke clears you're safe again  
and you're feeling strangely fine

(I'm feeling fine)  
Feeling fine [x3]

Take a small step away from it  
think of all you do right  
and when the smoke clears you're safe again  
and you're feeling strangely fine

Take a small step away from it  
think of all you do right  
and when the smoke clears you're safe again  
and you're feeling strangely fine  
and you're feeling strangely fine
