See that girl right there  
They say she's sexy as hell  
Cause when she glides into a room  
All her presence is felt.  
Its like she's insatiable, irresistible  
I know that I can get her  
And I won't even try  
Cause she gave me that look  
Like I'm the type of guy  
That knows how to please her  
Knows just what she needs

(But I....)  
I know I'm dreaming she's in love with me  
But in reality, she's a one night machine  
(And I....)  
I know she doesn't fall in love at all.  
Love is all I need.  
And I don't ca ca care about  
(the price of company)  
Love is all I need.  
And I don't ca ca care about  
(the price of company)

Its intentional, she  
Can be so persuadable  
But please believe me  
She tells her time  
With dollars and cents  
I am the clock that pays the rent  
Dressed to kill, she's taking all my will.

(And I....)  
Can't stop, want it all  
I'm sure before.  
This love is all I need.  
And I don't ca ca care about  
(the price of company)  
Love is all I need.  
And I don't ca ca care about  
(the price of company)

Love is all I need.  
And I don't ca ca care about  
(the price of company)  
Love is all I need.  
And I don't ca ca care about  
(the price of company)

There's a devil to left  
An angel to my right  
She's been running circles  
All around my mind  
With a body like that,  
Who could say no?  
She'll leave with my money  
And my self control

There's a devil to left  
An angel to my right  
She's been running circles  
All around my mind  
With a body like that,  
Who could say no?  
She'll leave with my money  
And my self control

You see that girl right there?  
(uh ohhhh)  
She's sexy as hell hell

You see that girl right there?  
(uh ohhhh)  
She's sexy as hell, hell, hell

Love is all I need.  
And I don't ca ca care about  
(the price of company)  
Love is all I need.  
And I don't ca ca care about  
(the price of company)

Love is all I need.  
And I don't ca ca care about  
(the price of company)  
Love is all I need.  
And I don't ca ca care about  
(the price of company)
