Tune on Tune in And drop out Drenched in ye olde  
Teufelkunst Licked  
from perdition's mouth With steel beacons high  
Against the blood red sky  
The pitchforks sing the lullaby

And I'll say I wanna be alone just go away And I'll say I  
wanna be a  
star for just one day

On Radio Werewolf

Tune on Tune in And drop out Come in Tango Omega  
King Fear is on the  
dow Up from the roof of the world He plays our little  
lives As LP's on 45

And I'll say I wanna be alone just go away And I'll say I  
wanna be a  
star for just one day

On Radio Werewolf

The sleep of monsters produces reason

And I'll say There's gonna be the hell to pay And I'll say  
I wanna be  
a star for just one day

On Radio Werewolf

On turntables emerald and green On sieges perilous  
13 Play twinkle  
twinkle little star And I'll wonder what you are Oh how  
we wonder Just  
what we are
