"Higher Than The Sun"

Visit "[Higher Than The Sun](#)" on MotoLyrics.com

Every now and then I get tired of myself
Each and every word, oh I've heard them all before
But when I'm spending time with you, I'm really
someone else

I am higher than the sun, and I'm not the only one
I am higher than the sun, when I spend my time with
you
only you

I recall the times when I was a little boy
I went roaming round, imagination was my toy
Now I'm down and out, lying on the floor

I am higher than the sun, and I'm not the only one
Yes I'm higher than the sun, when I spend my time with
you
only you

With yooou
only yooou..
