Every look.
Steals mine.
Stole my love.
Love your smile, that melted my heart.
Your heart is mine.
Mine is everyone else's.
Everyone such as,
The ones who hurt,
The ones who break, who fall.
Falling hard for you.
Cute boys with evil ways.
Toxic lips and sweet words.

Grasp my heart with every breath oh so hard.
The air is making this hot.
But it's colder than ice.
I'm melting from your touch.
The bright lights or just your bright smile.
Stay with me here for awhile.
Oh how I love this game,
I'll play with your heart
and you can play with mine.
