Above muslims  
Above christians  
Above jews  
Above everything and everyone

Ready to steam you  
Ready to burn you  
Ready to kill everything away

Waiting for weakness  
Waiting for anger  
Waiting for a reason to become a god

Going to use you  
Going to break you,  
make you pull the trigger

Almighty and everlasting Bomb  
came down among us  
to make Heaven of Earth

Almighty and everlasting Bomb  
came down among us  
to make Heaven of Earth

Killing for the nation  
Killing for the family  
Killing for religion  
Killing for any reason anywhere

Taking care of children  
Taking care of parents  
Everything burns just the same

No need to regret  
No need to pray  
The Bomb will love you anyway

Goal is destruction  
Goal is extinction,  
bloodshed in the name of god

Almighty and everlasting Bomb  
came down among us  
to make Heaven of Earth

Almighty and everlasting Bomb  
came down among us  
to make Heaven of Earth

Almighty and everlasting  
And everlasting bomb

Almighty and everlasting Bomb  
came down among us  
to make Heaven of Earth

Above muslims  
Above christians  
Above jews  
Above human

Almighty

Almighty and everlasting Bomb  
came down among us  
to make Heaven of Earth

Almighty and everlasting Bomb  
came down among us  
to make Heaven of Earth

Almighty  
and everlasting Bomb

Almighty and everlasting Bomb  
came down among us  
to make Heaven of Earth
