For a while I thought
the end is near
But the rain is gone
and I'm still here

Nothing has changed
there was no surprise
You played me out but
you can't get the prize

You don't know me anyway
For me it was not a game
You thought you saw through me

Nothing is in my way
Everything is just the same
I'm going to make it happen
one way or another

All obstacles were in my head
Now they're gone, you are going to break
You won't be the last one standing

I always let you
keep your own ideas
But didn't agree on
your greatest fears

You thought we always
had some kind of race
You might still think
that was the case

You cut my wings and took my chair
But look over here, I'm still flying
You thought you saw through me

Nothing is in my way
Everything is just the same
I'm going to make it happen
one way or another

All obstacles were in my head
Now they're gone, you are going to break
You won't be the last one standing

I did forgive you
every now and then
You think I will be
understanding again

I'm not going to make
your life hell
I won't help you,
you can do it yourself

Your point came clear, you're on your own
This is not your show
You thought you saw through me

Nothing is in my way
Everything is just the same
I'm going to make it happen
one way or another

All obstacles were in my head
Now they're gone, you are going to break
You won't be the last one standing

Nothing is in my way
Everything is just the same
I'm going to make it happen
one way or another

All obstacles were in my head
Now they're gone, you are going to break
You won't be the last one standing
