You've always been  
a good friend to everyone  
But what you have said  
is not what you have done

You've let me play  
with your fancy toys  
Now you think  
I don't have a choice

You're asking me to join you  
be a part of your club

Your words sound too good to be real  
I feel what I feel  
I can't believe you  
Words are just a move in your game  
I think you are lame  
I won't believe you

You came in peace or  
that's what you say  
I don't see a gun  
but there's a smile on your face

I've heard about  
things I don't see  
I don't think  
you've been honest with me

You're asking me to join you  
be a part of your club

Your words sound too good to be real  
I feel what I feel  
I can't believe you  
Words are just a move in your game  
I think you are lame  
I won't believe you

We need more money,

that's what you say  
We need better cars,  
hell of a lot of fame

I'm saying, I'm happy,  
but you don't hear me  
You tell me,  
there's so much more to be

You're asking me to join you  
be a part of your club

Your words sound too good to be real  
I feel what I feel  
I can't believe you  
Words are just a move in your game  
I think you are lame  
I won't believe you

I won't believe you

Your words sound too good to be real  
I feel what I feel  
I can't believe you  
Words are just a move in your game  
I think you are lame  
I won't believe you

Your words sound too good to be real  
I feel what I feel  
I can't believe you  
Words are just a move in your game  
I think you are lame  
I won't believe you
