Prescription pills, darvocet, Oxycontin, mescaline
And a whole array of synthetic medicine
Crystal glass, Ketamine, heroin, cyanide dream
And a whole generation laughs
It's not the drugs that killed your mom
It's not the blade that raped your brother
A whole world is suffering
Can't be the love we lost as children
Can't be the price of a
thousand prostitute graves
Nobody loves here everybody hates

I will survive
Why are you dancing with the devil
When the sun sets down on my heart
When the sun sets down I'm a star
Why dance with the devil when you have me?

Lysergic acid, psycho active, morphine, coke, sodomy
At war with society
Self-medication, codeine supply, self-mutilation
Sex taught suicide
It's not the drug that killed my soul
Not the pain of losing blood
In a ghost town paid symphony
Can't be the love we lost as children
Can't be the price of fucking saving your skin
