You there in that high wire
Hanging on for dear life
You there in that hurricane
Looking for a place to hide
Just reach out and take my hand
I'm gonna pull you through
Baby I'll be superman
If you need me to

[CHORUS]

I'll be your hero
I'll save your world
I'll scale any mountain
For you girl
To rescue you
I'll walk through fire
I'll give you
Anything your heart desires
I'll be your hero
I'll be your hero
I would walk on water
I would turn the tide
To see you make it
Safe and sound
Over to the other side
Let me be the shoulder
That you lean upon
When you need a knight in shining armour

[REPEAT CHORUS]

Oh baby just hold on tight
We're gonna fly faster
Than the speed of light

[REPEAT CHORUS]
