(Imagine interpersonal context)

You don't come 'round here anymore  
I sit around and beg for more  
Beg for more

Oh let me touch you baby  
Yeah I been down so lately  
I wanna kiss you lady  
I'm feeling awful lately

Since last I been around since four  
Enamored clipses begging for  
My dear you're knocking and knocking and knocking on  
the wrong door  
I'll sit and beg now from the poor, the poor, the poor  
From the poor

Oh let me touch you baby  
Yeah I been down so lately  
I wanna kiss you lady  
I'm feeling awful lately

I got no choices lately  
You know I trust you lady  
Give me a break now baby  
I'm feeling awful lately

Enthusiasm feeling nice  
I'll curb your anger with a knife  
Oh lady please say something nice  
Enthusiasm brings me strife

I'll watch my focus fly away  
Focus on angels digging graves  
I'll watch my focus die away  
Words are provisions, I have nothing  
I have nothing to say

You won't see me 'round here no more  
I'll sit and beg and beg for more

My dear you're knocking and knocking and knocking on  
the wrong door  
My face is wasted not no more, no more, no more  
Not no more

Oh let me touch you baby  
Yeah I been down so lately  
You know I trust you lady  
Give me a break now baby  
I got no choices lately  
You know I trust you lady  
Give me a break now baby  
I'm feeling awful lately
