Grab your keys and stop your whining baby  
You know this time we must be leaving lady  
The events are 'bout to start it honey  
And the police will keep us waitin'

You're the one, baby, meet your demise (Here we go,  
we're on a mission to Mars)  
You're the one, baby, meet your demise (Here we go,  
we're on a mission to Mars)  
You're the one, baby, meet your demise  
Aww, Lucy, Lucy, Lucy all in the sky

Take the last time to Mars  
And I'll bet your heart's still racin'  
You've been feeling very good my love  
In current situations

Close your eyes and reach for nothing baby  
November rains are over honey  
And you know we got those people lady  
Close your mouth or speak to somethin' baby

You're the one, baby, meet your demise (Here we go,  
we're on a mission to Mars)  
You're the one, baby, meet your demise (Here we go,  
we're on a mission to Mars)  
You're the one, baby, meet your demise  
Aww, Lucy, Lucy, Lucy all in the sky

Take the last time to Mars  
And I'll bet your heart's still racin'  
You've been feeling very good my love  
In current situations

You're the one, baby, meet your demise  
You're the one, baby, meet your demise  
You're the one, baby, meet your demise  
You're the one, baby, meet your demise

Here we go, we're on a mission to Mars  
Here we go, we're on a mission to Mars

You're the one, baby, meet your demise  
Aww, Lucy, Lucy, Lucy all in the sky (You're the one,  
baby, meet your demise)

Take the last time to Mars  
And I'll bet your heart's still racin' (You're the one,  
baby, meet your demise)  
You've been feeling very good my love  
In current situations (You're the one, baby, meet your  
demise)
