The are living the popular life
She is walking the confident stride
We are giving the no name notes
They are sailing tides in a boat

Take a good look around
Don't make a sound
Take a good look around
You're the only
You're the only one here

I try to tell you baby, day and night
I try to feed you baby, treat you right
I just can't stand it baby, understand
You want to read me baby like a can

Take a good look around
Don't make a sound
Take a good look around
You're the only
You're the only one here

See fakes hanging, just cut them down
Mouth polish tricks to astound
I'd rather hang then play your game
We are one not of the same

I try to tell you baby, treat you right
I try to tell you baby, day and night
I just can't stand it baby, understand
You want to read me baby like a can

Take a good look around
Don't make a sound
Take a good look around
You're the only
You're the only one here
