I won't be with you, I will not eat with you
I cannot bring you out.

I will see this through though I can't speak for you,
I cannot help you out.

Can I be the one who drags you down?
Won't I be that one child here?
Can't I be the one who drags you down?
Won't I have that one shot deal?

You stole my soul, you won't give up,
You try again.
You came so close, don't push your luck,
You try again.

Now, I won't breed with you, I will not sleep with you,
I cannot help you out.

Can I be the one who drags you down?
Won't I be that one child here?
Can't I be the one who drags you down?
Won't I have that one shot clear?

You stole my soul, you won't give up,
You try again.
You came so close, don't push your luck,
You try again.

You stole my soul, you won't give up,
You try again.
You came so close, you won't give up,
On me again.
