I've been through the fire
I've been through the flood
I've been through the rocks
And I've been through the mud
I've been through the storm
And I've been through the rain
But I'm not afraid to call his name
(X2)

(Chorus)

I for Jesus, you for Jesus, and everybody and
everybody must know
I for Jesus, you for Jesus, you are the wheat when it's
sown
I for Jesus, you for Jesus, and everybody and
everybody must know
I for Jesus, you for Jesus, you are the wheat when it's
sown
I for Jesus, you for Jesus, and everybody and
everybody must know
I for Jesus, you for Jesus, you are the wheat when it's
sown

So you wanna tear my situation
And throw it in my face
But I was washed in his blood
And I was saved by Jesus' grace
You don't know where he brought me from
Nor do you know my destiny
So why is it that you sit around here criticising me?
Woah

Chorus

I just can't give up now
Because Satan is making swell
I've been doing with this thing for a very long while
They probably wanna check out Wingy profile
And when they look they see that I'm God's child
I know them all a come with all them hypocrite's smile
Hypocrite walk, hypocrite profile

I made the worst mile, woah

Chorus

Come on to the floor, say
You know, when your brother that we rise up against
that spirit propaganda.
I affi do that for those to those who can't stand for
Jesus.
Don't do to split hairs and fight fire with fire because
great is he
That is in me and that he did in the world.
Yo deda! Says come on tesla. Get the message. Hear
me? Ay yo!
