Hey what's up yo this is Alex  
Hey hey thank you for the email

Ok you know cool cool good good

Go to the venue meet me at the venue  
Yeah I miss you too its been so long  
See you there bye

[Awol One]You got one night in town break out  
Of the ground baby doll are you down  
Only got one night in town  
Baby doll are you down

[Verse 1: 2Mex]

Hey yo thank you  
For coming out to the sound check  
I haven't even started running around yet  
We just got here not to long ago  
Is it me or did your hair get longer? No?  
Why do you still think we met on the legends tour  
I know I met you before that I'm just not sure  
I think I met you on the flow and tell  
I think we just said what's up to each other we didn't  
know each other  
that well  
Anyway  
Why don't you take me away for part of the day  
I'm down if you roll a j  
Yo just take me away from this tour van  
I'd love to walk around the city holding your hand  
So is it all right if I stay with you so  
I can pocket the money the promoter gave me for the  
hotel  
Cool you're the best  
No ones gonna take that away from you yes yes  
So what up now I heard you have a man now  
Hey that's cool whatever

I understand how you get lonely yo  
Busdriver told that on the other tour you came to his

show with some homie  
Hey that not your man no more?  
That not my business what happens  
I'm just letting you know I know that it happened  
Hey I know your in the mix  
Don't front it sucks we only get to kick it once  
Every 6 months  
Lets not talk about that tonight  
Shoot me back to the venue cuz I got to go rock the mic  
Yo really though  
I got to get to work  
But its so cute you came to my show wearing my shirt  
No I don't think that your stalking me its funny  
How you chased away the only other girl that wanted to  
talk to me  
But for real though its cool  
All the love an affection your giving me is cool  
Thank you  
For all the drawing pictures and letters  
Thank you for letting me kick it with you tonight  
whatever  
Yeah I know you wanna talk about that song  
I haven't thought about it in so long  
I don't know if you like me or just my music  
I like looking in to your eyes just like a muse  
Its an even trade  
Believe me if I could I would have stayed in a room we  
haven't made in the shade

[Awol One]

You got one night in town break out  
Of the ground baby doll are you down  
Only got one night in town
