We had something so good  
You're like a wrecking ball  
And you knocked it down just like I knew you would  
We had something so right  
I watched it twist, unravel and come undone  
I've got to send you back to where you came from

Broken down, I can't hold on  
Falling back again  
I wish you away, but still you come  
Crawling back again

If it feels like pain to you  
There's a semblance of the truth in how it hurts  
There will be no one, no one  
And if you carry on this way  
Everyone will turn away  
There will be no one, no one  
There will be no one, no one

Broken down, I can't hold on  
Falling back again  
I wish you away, but still you come  
Crawling back again  
[x2]

Was I just a dream?  
Was I anything?  
[x2]

Was I just a dream?  
Was I anything?  
Broken down, I can't hold on  
Falling back again

Was I just a dream?  
Was I anything?  
I wish you away, but still you come  
Crawling back again

Was I just a dream?

Was I anything?  
Broken down, I can't hold on  
Falling back again

Was I just a dream?  
Was I anything?  
I wish you away, but still you come  
Crawling back again
