"Hot As Hades"

She's a cold dark night in the dead of winter
The kind of cold that makes me bitter
She's the one I love, and I can't forget her

Reach out to us with a healing hand
To the touch she's hot as Hades
And she's slowly fading under
Now turn to the furious sun

She draws me in, and I always let her
She's a cold dark habit, and I can't kick her
She's the one I love, and I won't forget her

Reach out to us with a healing hand
To the touch she's hot as Hades
And she's slowly fading under
Now turn to the furious sun

Summertime comes and fireflies flicker
In the depths of her eyes
And I miss her, I miss her

Reach out to us with a healing hand
To the touch she's hot as Hades
And she's slowly fading under
Now turn to the furious sun
To the furious sun
To the furious sun
