I've been waiting
All this time just waiting
For you, for you
And sometimes
When I'm coasting
I wander into my headspace
To the place where
I remember that I've been forgotten

Waiting
(I'll be waiting)
All this time
For you
For you
[x2]

You will stay there
All is well and safe there
For you, for you
And sometimes
When you're lonely
You'll wonder
Was I worth knowing

Waiting
(I'll be waiting)
All this time
For you
For you
[x6]

You will stay there
All is well and safe there
For you, for you
And sometimes
When you're lonely
You'll wonder
Was I worth knowing
